3. Nasreen Aboul-Ela is listed as a co-author of the paper referred to in "2", but was not a con-inventor. This was done intentionally, because Aboul-Ela did not contribute to the inventive concept, but only performed experiments designed by us, and carried out routine laboratory work.
4. We hereby declare that all statements made of our own knowledge are true, and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the united States Code, and that such willful false statement may jeopardize the validity of the application or any patent issued thereon.
